TOWN AND COUNTY.

Alfalfa seed at Irvine's.
Judge Gregg will put in a crop this season on Clearwater's farm, west of town.

Call and examine the new goods at Goldberg's.

"You'll break my heart," she said, "if you don't get me a pair of those fine balmoral shoes at Goldman's."

Irvine & Co. have received a large lot of toys for Christmas.

Goldman & Co. are continually adding improvements to their establishment, for the better display of their goods.

Mr. Coeka will shortly commence the erection of a building, to be used as a grocery, on the corner east of Woolsey & Wentworth's hall.

Persons wishing to make Christmas presents should call and examine the large stock of elegant fancy goods at the California Variety Store, next to the Phoenix flour mill.

Go to Irvine's if you want a good range or cooking stove.

Orders from the country receive prompt attention at Goldberg's.

Charley was pronounced the best dancer at the Thanksgiving party. He wore a pair of those French calf boots of Goldman's.

Julius Sampter will remove his mercantile establishment on Monday next to the building adjoining the Herald office, on the north.

Look out for bargains at Irvine's, as they propose selling off their whole stock.

Only the choicest groceries kept at the California variety store, next door to the Phoenix flour mill.

Irvine has just received a large lot of honey from California.

Philosophers presume the brain to be the seat of the soul. Cover your cranium with one of those stylish hats of Goldman's.

J. B. Douglas, architect, informs us that the erection of several buildings on Washington street will probably be commenced shortly.

One price to all at Goldberg's.
A quilting party is to be gotten up shortly. Goldman's can furnish you with cotton bats.

Work on Steinacker's building has come to a halt owing to delay in getting lumber and brick. In about ten days this want will be supplied, and work will go on.

One-sixteenth of an acre, in peanuts, on the ranch of Judge Gregg, produced 500 pounds, and of as good a quality as raised in any country.

Nice, valuable and useful Christmas presents for sale at Goldberg's.

Christmas is coming and the little ones expect lots of candy and sweetmeats. Call at the California Variety Store, next to the Phoenix flour mill, where there is a fine assortment to be sold cheap.

Splendid suits from \$12 upwards at Goldberg's.

"Sow and you'll reap." Alfalfa seed and all kinds of garden seed at Goldman's.

Coffee pots, canteens, buckets, camp kettles, oil cans, etc., at Goldberg's.

"Don't he look nobby," one of our belles said about a gent, who wore an all wool cardigan jacket of Goldman's.

Smith & Woolsey's flour mill is busily engaged in turning out the staff of life, and owing to its excellent quality the orders far exceed the supply. Buy only the very best, and that is manufactured at Smith & Woolsey's Phoenix Flouring mill. See that you get the right brand, as storekeepers might be tempted to pass off an inferior article, owing to their being able to make larger profits thereby.

Best quality of all kinds of clothing at Goldberg's.

"Those hot cakes are awful dry, ma. Why don't you buy a gallon of syrup for \$2.00 at Goldman's?"

Bring all your produce to Goldberg's.

Thanksgiving day was properly observed in Phoenix, many of our

places of business being closed. A ball was given at the residence of C. T. Hayden at Tempe. An excellent supper was spread at midnight and partaken of by eighty persons.

Men are busy making adobes for E. Irvine's new building. When completed, it will be a handsome addition to Washington street.

Preparations for a Christmas tree are progressing finely.

GOLDEN STAR MINE.

Grand Success—A Big Clean Up.

Mr. W. B. Helling, superintendent of the Golden Star mine, came in on Monday night and passed through to Maricopa Wells, for San Francisco. Mr. Helling took with him \$24,000 in gold bullion, being the result of the clean up for thirty days. Five hundred and forty tons of rock were crushed, yielding \$47 per ton and not counting the concentrations, nearly a ton of which are saved every twenty-four hours—the average assay being \$200 per ton. The ores of the Golden Star mine carry very rich sulphurets, which are all saved with the free concentrating tables. Mr. Helling informs us the mine has dividends in sight for twenty years. We heartily congratulate him and all investors in the company on their great success.

The following petition, addressed to the Second Assistant Postmaster General, is being largely signed: We your petitioners, citizens of Salt River Valley, ask the establishment of a mail route between Phoenix and Gila Bend, a distance of 45 miles, and the placing of a daily service thereon.

The permanent population of Salt River Valley is increasing so rapidly that a more direct communication with San Francisco is needed. By the above change a saving of eight hours will be made.

A Correction.

In our issue of last week we gave the official result of the election in this county, in which John E. Naylor was credited with only 434 votes in the county, for the office of district attorney, whereas his vote was 534 and his majority over Mr. Lemon 143. John says he worked hard for his votes and wants credit for all he received.

Messrs. H. W. Bordwell, Geo. Monroe, Frank Percella and T. Thomson made a flying visit to the Golden Star mill on Wednesday last.

Matt Larkin, one of the "boys," arrived here from Florence last Thursday. He brought his trunk along and will probably remain a short time.

Lost.

A small memorandum book, containing some money and accounts of value only to the owner. Finder is welcome to the money and no questions asked upon its return to the shoe shop adjoining the Magnolia saloon.

MINING ASSESSMENTS.

Article 6, section 5, chapter 51, of the compiled laws of Arizona, in regard to the sale of stock for delinquent assessments, says: "That no such sale shall be made without thirty days' notice of time and place of sale, in some newspaper published in the county, if there be any newspaper published in the county, if not, then in some newspaper published nearest to the place of business of such company, within the territory."

Campaign Chips.

Defeated candidates are about as plenty, and about as sour as the small flies around a cider press.

Light pockets balanced by heavy hearts are in the ascendancy at present.

The smile of the defeated, self-sacrificing, would-be-servant of the people forcibly reminds us of "the melancholy days—saddest of the year."

The "stiffs" around town all assent that they are in favor of the terms of the offices conferred by the general election being shortened at least one-half.

Perhaps until the present time some men have never realized how fragile are those edifices, familiarly called castles in the air. All such have our undivided sympathies.

It is astonishing how many knew just exactly how the election would result, and "told you so," yet somehow you can't exactly remember of them expressing their opinions to you but of course they did. Would it not have been better if these very knowing personages had informed the candidates who they "told you" were sure to be defeated, and thus saved them time, trouble and expense incident to a "run" for office?

The man who will invent an elastic button-hole, that will stand any amount of stretching, and then contract to its usual size so as to hold a button, will be a benefactor and meritorious heart-felt gratitude of future generations. More anon.
